Petitions

The Petitions Section can help you make a positive difference in advancing liberty, justice, and Biblical Christian solutions in government - opening further doors to advancing God's plan of redemption in the world. You can do this by joining others in signing a petition that addresses our collective concerns and requests officials to pursue God's word, in public policy, and in restoring justice and liberty. If the issue addressed in the petition is directed toward a federal issue and you want to further your impact, then after signing the petition, you may consider writing your federal elected officials.
